Licensing Enforcement Notice

Licensing Enforcement Notice – Ethereum Foundation / ethereum.org

To Whom It May Concern,

This notice serves as a formal declaration of licensing infringement and cryptographic authorship enforcement.

Parties Involved

- **Target**: Ethereum Foundation

- **Website**: ethereum.org

- **Key Repositories**: github.com/ethereum, github.com/ethereum/go-ethereum

- **Violations**: Derivative use of early Bitcoin protocol logic, transaction format, block design, and signing schemes.

Evidence Provided

Refer to the notarized ZIP and signed documentation:

- **ZIP Archive**: Ethereum_Licensing_Enforcement_20250702.zip

- **SHA256**: [included]

- **PDF Notice**: Licensing_Claim_Ethereum.pdf

- **GPG Signature**: Licensing_Claim_Ethereum.pdf.asc

- **GitHub Ledger**: https://github.com/Manny27nyc/Bitcoin_Notarized_SignKit

Required Action

1. Cease further distribution of unlicensed Bitcoin-derived components

2. Contact the author (Manuel J. Nieves) for a licensing agreement or formal IP audit

3. Remove or publicly attribute any reused protocol-level code under proper terms

Failure to Comply

If no response is received within ten (10) business days, the following actions may be taken:

- Filing a formal DMCA complaint with GitHub

- UDRP action if domain reuse is involved

- Legal enforcement under U.S. copyright and technological protections

Sincerely,
Manuel J. Nieves
Cryptographic Author of Bitcoin
